

# Paul Leger, Ph. D. in Computer Science & SDE

Software Engineer & Associate Professor  
Civil Engineering School  
Catholic University of the North  
Larrondo 1281, Coquimbo, Chile

Email: [pleger@gmail.com](mailto:pleger@gmail.com)  
Homepage: <http://pleger.cl>  
Pragmatics lab: <http://pragmatics-lab.com> (Director)  
LinkedIn: <http://cl.linkedin.com/in/plegerm>

## Personal

Name: Paul Leger  
Hometown: Coquimbo, Chile  
Nationality: Chilean

## Education

**Visiting Researcher**, universities across the world:

- Centre for Development of Advanced Computing (C-DAC), India, 2024 (3 weeks).
- University of The Andes, Colombia, 2021 (3 weeks).
- Tokyo Institute of Technology, Japan, 2019 (6 months).
- University of Cauca, Colombia, 2018 (2 months).
- Shibaura Institute of Technology (x 2), Japan, 2013-2014 (4-2 months).
- École des mines de Nantes, France, 2010 (2 months).

**Certifications:**

- "Fundamentals of English Medium Instruction", University of Pennsylvania, 2023 (August).
- "Teaching University", Highest level, Catholic University of the North, 2024 (January).

**Ph. D. in Computer Science**, University of Chile, 2006 - 2012.

- Subject: Opening Up Trace-Based Mechanisms.
- Advisor: Éric Tanter (<http://pleiad.cl/etanter>).

**Engineering degree in Computer Science**, University of La Serena, 1999 - 2005 (July).

**B.Sc. in Computing Science**, University of La Serena, 1999 - 2005 (April).

## Management Services

**Director.** Chilean Computer Science Society (SCCC), 2020 - 2022.

**Sub-director.** Engineering Systems Doctorate (<https://dsi-en.ucn.cl>) at Universidad Católica del Norte (Chile), 2023 - present.

**Project Manager.** A freelance software development manager, mainly in agile methodologies, 2019 - present.

**Recruiting and developing team.** As the director of the research laboratory (Pragmatics Lab), I am constantly looking for new good students to prepare them in different computer science projects. Likewise, I am often making new research groups of professors from different countries, 2018 - present.

**Head of program study.** Civil Engineering in Computer Science at Universidad Católica del Norte (Chile), over 400 students, 2021 - 2022.

**Head of program study.** Engineering in Information Technology at Universidad Católica del Norte (Chile), over 100 students, 2021 - 2022.

**Pragmatics Lab.** Director of an international research laboratory (<http://pragmatics-lab.com>), where professors and students from Japan, Colombia, and Chile collaborate, 2019 - present.

## Software Development Engineer

As I enjoy working on software engineering, I occasionally work as a freelancer doing software development and as a team manager in software projects:

**Macrosoftware.** Consulting software engineer, 2020 - present.

**G-Tech.** Project Manager, a startup mobile application, 2022.

**Autopista Central.** Consulting engineer, 2017.

**Regional Observatory (working market).** Software project manager, implementation of an information system that allows users to analyze working market in a region of Chile, 2016 - 2017.

**Autopista Central.** Consulting engineer, 2011.

**Center for Advanced Research in Arid Zones (CEAZA).** Research assistant, two tasks: a) using MM5 (mesoscale model) to simulate mesoscale atmospheric circulation and b) applying artificial neural networks to classify rainfall scenarios (both tasks applied to a limited-area in Chile), 2002 - 2004.

## Software Development for Research

My software projects are more related to creating complex software artifacts than developing traditional industrial software (*e.g.*, Inventory Management). Source: <http://pleger.cl/software>.

**EMAjs:** JavaScript library that implements an Expressive and Modular Activation mechanism for context-oriented programming. <https://github.com/pragmatics-laboratory/EMAjs>, 2022.

**CommerceSimulator:** Java software to simulate buyers in e-commerce like Amazon, AliExpress, and Wish. This simulation considers the endorsements theory. Finally, this software can be used to execute different kinds of experiments. <https://github.com/pleger/ABME-market>, 2021.

**DeloreanJS:** A back-in-time debugger for JavaScript. This software is strongly developed by Felipe Ruiz ([felipe.ruiz@alumnos.ucn.cl](mailto:felipe.ruiz@alumnos.ucn.cl)) and Guillermo Victorero ([guillermo.victorero@alumnos.ucn.cl](mailto:guillermo.victorero@alumnos.ucn.cl)). You can try it on <http://pleger.cl/sites/deloreanjs>. <https://github.com/pragmatics-laboratory/deloreanjs>, 2019.

**AspectScript:** An aspect-oriented extension of JavaScript for expressive AOP, which integrates several state-of-the-art features related to higher-order programming and expressive scoping of aspects. <https://pleiad.cl/aspectscript>, 2010.

**Matcher Cell:** A JavaScript library to flexibly match patterns. You can try it on <https://pragmatics-laboratory.github.io/matcher-cells-study-cases>. <https://github.com/pragmatics-laboratory/match-cell-base>, 2021.

**RAI-JS:** A JavaScript library for Context-Oriented Programming (COP), which supports reactive activation mechanisms. You can try it on <http://pleger.cl/sites/raijs>. <https://github.com/pleger/rai-js>, 2019.

**Sync/CC (proof of concept):** A library to address callback issues on JavaScript. You can try it on <https://pleger.cl/synccc>. <https://github.com/pragmatics-laboratory/synnccc>, 2019.

## Academic Experience

### *Scientific Services*

Funded Projects (*x 3*). Principal Researcher (ANID-2023), Principal Investigator (Chile), and Co-Researcher (Japanese government).

Organizer of International Events (*x 4*). JCC'20 (Chile), COP'20 (Germany), and MPSE'14/15 (USA).

Editor and Reviewer of JCR Journals (*x 43*). Editor (*x 4*) and Reviewer (*x 39*).

Chair of International Events (*x 9*). ICSME'23 (Colombia), LMN'22 (Chile), JCC'20 (Chile), MPSE'14/15 (USA), SAC-SE'17 (Morocco), and BIONETICS'15 (USA).

Program Committee Member (*x 16*). SAC-SE (various countries), SBLP (Brazil), COP (Germany), VISSOFT (Chile), and INFONOR (Chile).

Evaluator (*x 10*). Research Projects and (International) External Master Reviewers.

### *Lecturer*

**Postgraduate** (*x 7*). Areas are Programming Languages, Software Engineering, and Management.

**Undergraduate** (*x 43*). Areas are Programming Languages, Software Engineering, and Management.

**Thesis Advising** (*x 26*). Postgraduate (*x 2*) and Undergraduate (*x 24*).

For more information about my teaching experience, please visit <http://pleger.cl/teaching>.

### *Publications*

My research profile ID on Google Scholar: <https://scholar.google.cl/citations?user=CrqCdsgAAAAJ>

**Indexed Journals.** 31 publications (25 JCR-WoS, 2 SCOPUS, 1 ESCI, and 3 LatIndex).

**Indexed Conferences.** 15 publications (SCOPUS).

**Indexed Workshops.** 7 publications (SCOPUS).

For detailed information about my publications, please visit <http://pleger.cl/research>.
